

Providing the **Best** in **Logistics**

From Japan to the Future!

Toho Transportation &
Warehouse Co., Ltd.

Established in 1952, **Toho Transportation & Warehouse** has been harnessing its wealth of knowledge and experience to realize the best logistics system possible.

We have been expanding and upgrading our logistics infrastructure and network to make our operations more efficient, developing transportation technologies to meet increasingly diverse customer needs, training teams of dedicated logistics experts, and applying IT solutions to managing goods received, stored, and shipped in and out of our warehouses. These efforts have enabled us to provide our customers around the world with customized services designed to streamline their overall logistics operations and improve their efficiency.

We are the most reliable partner for customers across the globe who require the best in logistics.

Toho Transportation & Warehouse Group Network

- Our Company Administration
- Coexistence company Administration

Our seven group companies, all located in the eastern part of Japan, work with 11 affiliates to operate an unparalleled regional storage and transportation network.

While the bulk of our business involves transporting small cargo loads to remote locations widely dispersed across eastern Japan, we maximize efficiency by consolidating everything via our network of area logistics centers before delivering shipments to their final destinations.

Our systematically operated logistics services are designed to get our customers what they need when they need it.

Toho Transportation & Warehouse Group:
7 companies operating in 25 locations

Affiliates: 11 companies operating in 21 locations

Number of vehicles in our fleet:

222 trucks

188 forklifts

Value Creation

In 1996 Toho Transportation & Warehouse leveraged the vast logistics expertise it gained over the years to become the first in Japan to provide shared storage and transportation services for three leading food companies in the Tohoku region.

We also launched the nation's first shared transportation services for six top construction materials companies in the region. Since then, we have been providing customers with value-added services that set us apart from the competition, and today we provide these services to over 50 construction materials companies.

The transportation solutions and networks we have been building over the past 70 years provide a firm foundation for the low-cost operations which keep our customers satisfied with optimal logistics services that immediately respond to their needs.

The Toho Transportation & Warehouse Group has developed efficient logistics services tailored to the needs of all kinds of customers from a broad range of industries, including food, housing and construction materials, auto parts, daily sundries, and precision machinery.

Main Operations

Logistics services tailored to customer needs for a wide range of goods!

Food and beverages

Machinery and equipment
(multifunction printers and photovoltaic equipment)

Daily sundries

Nursing care product rentals

Document storage

Housing materials and equipment

Auto parts
(tires and aluminum wheels)

Paper products
(printing paper)

Delivery of goods to convenience stores

The Toho Transportation & Warehouse Group optimizes transportation services with a combination of transport modes—road, rail, sea, and air—and modal-shift solutions that best meet individual customer’s needs.

Working with an eye to the SDGs, we offer customized solutions in response to customers’ challenging logistics needs, from storing and transporting hazardous materials to reducing logistics costs, ensuring environmental compliance, shortening transportation lead times, and delivering goods to destinations with space constraints.

Customs brokerage services

Sendai Shiogama Port

- Customs brokerage services (at Sendai Port and Sendai Airport for inbound and outbound cargo)
- Storage of bonded cargo
- Drayage (for inbound and outbound containers), etc.

Transportation services

Collection and transport of cargo to and from freight rail stations as well as handling of rail cargo.

Storage and transportation services for hazardous materials

Storage, handling, and transport of hazardous materials/goods and poisonous substances.

Self-storage

Our bright, clean, and secure storage spaces are the perfect solution to keeping your home and office tidy.

Container storage service

Our container storage service is convenient for storing large items such as furniture. Dustproof, anti-mold containers are stored in our warehouses.

Self-storage

You can rest assured that your items are safe in our highly secure storage facilities. Our climate controlled storage helps preserve the quality of your valuable items.

International Logistics Services

The Toho Transportation & Warehouse Group provides door-to-door logistics services, including complex procedures for importing and exporting goods.

From a single carton to container loads, we make international trade easy.

Designed to meet a world of customer needs, our international logistics services extend to imports and exports between Japan and countries across Asia as well as Europe and the Americas.

Our **quality, cost, and lead time** performances have earned high marks from our customers.

We have **won** many annual industry competitions in logistics quality for **food products** as well as **construction materials and equipment**.

Customers everywhere are impressed by our outstanding track record for conducting **safe and environmentally responsible business operations**.

Award Certificates
